PROFILE SUMMARY

B.Tech Computer Science student and aspiring Software Engineer with hands-on experience in frontend and full-stack web development. Skilled in HTML, CSS, JavaScript, React.js, Node.js, Express.js and MongoDB, with a strong understanding of responsive UI development, REST APIs, authentication, OOP and DSA. Experienced in building responsive web applications, e-commerce interfaces, games, portfolio websites and travel-focused applications. Passionate about solving problems, learning modern technologies and developing clean, user-friendly digital experiences.

INTERNSHIP

Wayspire EdTech Pvt Ltd , Full Stack Developer Intern

01/2025 – 04/2025 | Remote

- Developed a responsive portfolio website using **HTML5, CSS3, JavaScript (ES6)**.
- Debugged and resolved frontend bugs, ensuring responsive and cross-browser compatible user interfaces.
- Collaborated using **Git & GitHub** and leveraged **VS Code** and **Antigravity AI** to streamline development and debugging.

EDUCATION

B.Tech CSE, JECRC University
69%

2023 – Present | jaipur

Higher Secondary, SAVM School
77%

2022 – 2023 | Riyan Badi, Nagaur

Secondary, Jay Rana School
89%

2020 – 2021 | Jasnagar, nagaur

SKILLS & TOOLS

Technical Skills (Language): C, C++, JavaScript

Frontend: HTML5, CSS3, JavaScript, React.js, Responsive Web Design

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, MongoDB Compass

Tools: Git, GitHub, VS Code, npm, Postman, Chrome DevTools

Core: Data Structures & Algorithms, OOP, Authentication, JSON

Development Tools: Git & GitHub, Jira

AI & DEVELOPMENT TOOLS: ChatGPT, Gemini, GitHub Copilot, Prompt Engineering, AI-assisted Coding

Ranking Platform: 150+ DSA Solved Questions | **LeetCode:** <https://leetcode.com/u/Lokesh2704/> 

Soft Skills: Problem Solving, Communication, Teamwork, Critical Thinking, Adaptability, Time Management

PROJECTS

Timeloo 

- Developed a full-stack web application to store and manage travel memories, trips, and experiences.
- Built a responsive user interface using React.js and integrated REST APIs with a Node.js backend.
- Used MongoDB for data storage and implemented features such as user authentication and trip management.
- Designed a scalable and user-friendly application with responsive layouts and efficient data handling.

ABFitness , Gym Website

- Developed a responsive Gym & Fitness website using **Next.js, React.js, TypeScript, and Tailwind CSS**.
- Customized AI-generated components and optimized the UI for responsiveness and performance.
- Built reusable React components following modern web development practices.
- Managed version control using **Git & GitHub**.

GenVeb – AI-Powered Career Management Application (Ongoing) 

- Currently developing a full-stack career management application using modern web technologies with a combination of manual coding and Antigravity AI-assisted development.
- Developed modules for user authentication, resume management, interview preparation, job application tracking, and analytics through a responsive and intuitive interface.
- Integrated cloud services for secure data storage, user authentication, and scalable application deployment.
- Utilized Antigravity AI for development assistance, debugging, and code optimization while implementing core application logic and UI components manually.

Amazon Clone | Full-Stack Web Application (Ongoing) 

- Currently developing a full-stack Amazon-inspired e-commerce web application using modern web technologies.
- Implementing features including user authentication, product browsing, shopping cart, and a responsive user interface.
- Leveraging AI-powered development tools for code generation, debugging, and performance optimization.
- Using Git & GitHub for version control while following component-based development practices.

ShopZone , E-Commerce Web Application

- Developed a modern e-commerce web application focused on providing a smooth online shopping experience.
- Designed a clean and responsive user interface for presenting products and shopping-related content.
- Implemented responsive frontend components using HTML, CSS and JavaScript.

CERTIFICATES

Bunkmates Hackathon:  A web that preserves the memory of our future and past journeys.

Full stack web development:  Udemy

Training in Web Development:  Wayspire EdTech Pvt Ltd

Tenzorex 2026 National AI Hackathon:  Unstop
